 1. New idea; sell Higgins Pit RECs to fund Sust. Coordinator? Beth Woolfork estimates RECs would be around \$60,000/yr.
 2. Beth also estimates \$6 million saved over the life of the solar panels at Higgins pit. Should we make a suggestion to use these savings for furthering sustainability commitments? Perhaps suggest a percent of this should be saved each year to make further efficiency improvements and a % that goes to reducing costs for lower-income folks in town?
 - iii. Next Steps:
 1. If Town Council approves adding \$ to budget, the Warrant Committee and Town Council will meet in late Jan. over 3 days to review each line item. We will need a rep there whenever it comes up in order to answer questions.
 2. Cornell recommends researching how other towns hired - was there a consultant first? How much are the Sust. Coord. paid?
