RE: Lower Main Street
Town of Bar Harbor
State Route #3
WIN#27028.00

Dear Builders Utility and Earthwork Contractors:

We have included with this letter a plan and bid package for the Town of Bar Harbor, Lower Main Street Sewer Water and Drainage Improvements. The project is a joint venture between MDOT and the Town of Bar Harbor.

The timelines for the project include bid return in August 2023, engagement and ordering of materials leading up to starting in onsite in November of 2023, with a final completion set for **May of 2025**.

We hope you will find this of interest to study the bid set and submit a bid to assist in this historic step forward for the Town of Bar Harbor and our partners at MDOT.

Sincerely,

Greg Johnston P.E.
