Return of Municipal Officers:-

In accordance with the petition hereto prefixed, signed by F. E. Sherman and others, inhabitants of the Town of Eden, aforesaid, and as required by statute, we, the undersigned, Municipal Officers of said Town of Eden, gave due and legal notice of our intention to lay out a town way by causing the within notice, a copy of which is above set forth, to be posted for seven days in two public places in the Town of Eden, Hancock county, Maine, and in the vicinity of the proposed way, to wit, we caused said notice to be posted on January 14th, 1905, at the Municipal Offices in Grant Block at Bar Harbor in said Eden, and on a tree at the junction of the Bloomfield Road with the Devon Road in said Bar Harbor, both being public places in said Town of Eden, and in the vicinity of the proposed way.

Pursuant to said notice, we met at the time and place appointed, to wit, on the 28th day of January, A.D. 1905, at the corner of Woodbury Road and Bloomfield Road, in said Bar Harbor at three o'clock in the afternoon, and heard the parties and repaired to the route of the proposed way, and examined the same. Whereupon, after such examination and hearing we determined to lay out said way and do lay out the same as a town way, with the following bounds and admeasurements:-

Beginning at a stone post set in the ground in the Western line of Woodbury Road, at its intersection with the western line of Bloomfield Road; thence running North 24°-34' West, twelve (12) feet to a stone post set in the ground; thence North 72°-44' West, twelve feet to a stone post set in the ground; thence South 67°-30' West seven hundred and thirty-one and eight-tenths (731.8) feet to a stone post set in the ground; thence deflecting to the right one hundred and fifteen degrees (115°) and running North 13°-30' West ninety-eight and eight-tenths (98.8) feet to a stone post set in the ground,

said stone post marking the southeast corner of land of Hugh McMillan: thence on same course following the easterly line of said land of McMillan, two hundred and fifty-six and six-tenths (256.6) feet to a stone post set in the ground said stone post marking the southeast corner of land of A. Howard Hinkle; thence on same course following the easterly line of said land of Hinkle, two hundred and eighty-one and seven-tenths (281.7) feet to a stone post set in the ground in the southerly side line of Cleftstone Road, said stone post marking the northeast corner of said land of Hinkle; thence following the southerly side line of Cleftstone Road North 83°-30' East, forty (40) feet to a stone post set in the ground; thence South 13°-30' East, parallel with and forty feet distant from the line last but one described, three hundred and forty-five and seven-tenths (345.7) feet to a stone post set in the ground; thence on same course eighty-three (83) feet to a stone post set in the ground; thence deflecting to the left on a regular curve tangent to the last described line, whose radius is eighty-seven and seventy-five hundredths (87.75) feet, and whose central angle is one hundred and fifteen degrees (115°) one hundred and seventy-six and one-tenth (176.1) feet, more or less to a stone post set in the ground at the point of tangency of said curve, (this curve is laid out by chords of ten (10) feet each and marked by cedar posts set in the ground); thence North 51°-30' East parallel with and forty (40) feet distant from the fourth line above described, three hundred and ninety-eight and three-tenths (398.3) feet to the southwest corner of land of Geo. W. Guthrie; thence following the southerly and southeasterly lines of land of said Guthrie by the seven (7) courses and distances next following: First, North 51°-30' East, two hundred and nineteen and four-tenths (219.4) feet to a stone post set in the ground; thence North 47°-05' East sixty-one (61) feet to a stone post set in the ground; thence North 30°-40' East twenty (20) feet to a stone post set in the ground; thence

North 15°-40' East ten (10) feet to a stone post set in the ground; thence North 4°-55' East ten (10) feet to a stone post set in the ground; thence North 7°-05' West ten (10) feet to a stone post set in the ground; thence North 15°-35' West ten (10) feet to a stone post set in the ground in the westerly side line of Bloomfield Road; thence following the said westerly side line of Bloomfield Road South 1° East one hundred and twelve and three-tenths (112.3) feet to the place of beginning, according to survey and plan made by Edgar I. Lord, Surveyor.

The way so laid out follows substantially the route of the private way known as Devon Road as now constructed and used, and being forty feet wide in every part except at its junction with the Bloomfield Road where it widens to one hundred and twelve and three-tenths (112.3) feet, and at the angle where the width is shown by said stone posts on the south and a line of cedar posts set in the ground on the north, and is marked at each side at all the angles thereof by stone posts and cedar posts set in the ground, as above set forth in detail. Said way crosses land of Charles L. Hamor. We allow no damage for the land taken.

Having laid out the way as aforesaid, we make this our written return of our proceedings, containing the particulars and for the purposes provided by Revised Statutes Chapter 23.

having personally examined the route proposed, are of opinion that there is occasion for a public sewer or drain for the use of said town as proposed:

We therefore layout said public sewer or drain, beginning at a piece of iron pipe driven in the ground in the northern line of West street, said piece of iron pipe marking the division line between land of George S. Bowdoin and land of the estate of De Grasse Fox; thence following said line North 8° West ninety-one and twenty-five hundredths (91.25) feet to a piece of iron pipe driven in the ground; thence on same course twenty-six (26) feet; thence deflecting to the right on a regular course whose radius is thirty-three and five-tenths (33.5) feet and whose central angle is 71°-36' forty-one and eighty-six hundredths (41.86) feet to the point of tangency of said curve; thence North 63°-36' East two hundred and fifty (250) feet; thence deflecting to the left on a regular curve whose radius is one hundred and thirty-two (132) feet and whose central angle is 41°-15', ninety-five (95) feet to the point of tangency of said curve; thence North 22°-21' East three hundred and twenty (320) feet more or less to a stake at low water mark described line crosses the shore or flats adjoining land of George S. Bowdoin, Jane P. Dennison, Sarah A. Hewitt, and estate of Edith Randolph, and is the center line of a strip ten (10) feet wide: and we will allow nothing to the owners of the land over which the sewer or drain passes, for their damages.

Such laying out, with boundaries and admeasurements, has been filed with the Town Clerk, on the twentieth of February, A.D. 1905 being seven days before this meeting: and we now hereby report such laying out, with the boundaries and admeasurements of the same, to said Town at the meeting of the Inhabitants regularly warned and notified for them to accept and allow the same.

Dipield and Joy wharf licence

Whereas, By Section 10 of an act of Congress, approved March 3, 1899, An act making appropriations for the construction, repair, and preservation of certain public works on rivers and harbors, and for other purposes, it is provided that it shall not be lawful to build or commence the building of any wharf, pier, dolphin, boom, weir, breakwater, bulkhead, jetty, or other structures in any port, roadstead, haven, harbor, canal, navigable river, or other water of the United States, outside established harbor lines, or where no harbor lines have been established, except on plans recommended by the Chief of Engineers and authorized by the Secretary of War; and it shall not be lawful to excavate or fill, or in any manner to alter or modify the course, location, condition, or capacity of any port, roadstead, haven, harbor, canal, lake, harbor of refuge, or inclosure within the limits of any breakwater, or the canal of any navigable water of the United States, unless the work has been recommended by the Chief of Engineers and authorized by the Secretary of War prior to beginning the same;

And whereas, Dipield and Joy have applied to the Secretary of War for permission to construct and maintain a wharf at Bar Harbor, Maine, at the location and as shown on the attached plans, which plans have been recommended by the Chief of Engineers;

Now therefore, this is to certify that the Secretary of War hereby gives permission to the said Dipield and Joy to construct and maintain a wharf at Bar Harbor, Maine, at the location and as shown on said plans, upon the following conditions:

1. That the work herein permitted to be done shall be subject to the supervision and approval of the Engineer Officer of the United States Army in charge of the locality.

2. That if at any time in the future it shall be made to appear to the Secretary of War that the structure herein authorized is an unreasonable obstruction to the free navigation of said waters, said license will be required, upon due notice from the Secretary of War, to remove or alter the same so as to render navigation through said waters reasonably free, easy and unobstructed.

Plan of wharf filed this 18th day of June. 1905

Whereas a suit is now pending in the United States Circuit Court for the District of Maine, brought by said Kennedy the purpose of settling such Controversy, and establishing the relative rights of the parties hereto, and

Whereas the parties hereto have agreed and do hereby agree to settle said Controversy and suit; said Kennedy on his part agreeing to establish and Confirm said Municipal Corporation's rights to maintain said drain, and not for Sewage; and said Municipal Corporation on its part agreeing to release any and all rights not necessary for the maintenance and repair of said drain to be used for Surface Water only, and

Whereas this instrument is made and executed for the purpose of Carrying such agreement into full effect.

Now Know all Men by these Presents that the said John S. Kennedy does hereby grant unto said Municipal Corporation the perpetual right - and does hereby establish and Confirm any existing rights of

said Corporation if any to maintain and repair such drain for purpose drainage purpose only - but all right granted, established and confirmed hereby shall be and are limited to a strip of land through which said pipe is laid, extending from said Main Street to the mouth of said drain as now constructed, said strip of land to be eight feet in width, one half on each side of the center of said drain as now constructed.

And said Municipal Corporation by its Selectmen thereunto duly authorized, deeming, and its said Selectmen deeming the rights herein released as unnecessary for the purposes of the Town, does hereby release to said Kennedy, his Heirs and Assigns any and all rights in Connection with said drain in and to any land or property of said Kennedy outside of the strip of land eight feet in width above described, and does hereby also release to said Kennedy, his Heirs and Assigns any and all rights that it may have in any manner acquired to use the surface of said strip of land eight feet in width for any purpose except the maintenance of manholes and except such use as may be necessary for the repair of such drain and does hereby further release to said Kennedy, his Heirs and Assigns, all rights if any, that it may have in any manner acquired to use said drain for sewage purposes.

Said Municipal Corporation by its Selectmen further stipulates and agrees that it has no right to use said drain for the Carrying of sewage; that it will not disturb the surface of the ground except when necessary to repair said drain; that when the surface of the ground is disturbed for the above purpose, such surface shall as soon as may be, be restored to its former Condition; that said Kennedy, his Heirs and Assigns shall have the Equitual right to enter said drain in a reasonable and proper manner, and to use the same for purpose drainage.

The Covenants and agreements made by each party hereto are made in Consideration of the Covenants and agreements herein Contained made by the other party hereto.

Wharf Privilege for Mabel Trust Slater

Whereas, By Section 10 of an act of Congress, approved March 3, 1899, entitled "An act making appropriations for the Construction, repair, and preservation of certain Public works on rivers and harbors, and for other purposes" it is provided that it shall not be lawful to build or commence the building of any wharf, pier, dolphin, boom, weir, breakwater, bulkhead, jetty, or other structures in any port, roadstead, haven, harbor, canal, navigable river, or other water of the United States, outside established harbor lines, or where no harbor lines have been established, except on plans recommended by the Chief of Engineers and authorized by the Secretary of War; and it shall not be lawful to excavate or fill, or in any manner to alter or modify the course, location, condition, or capacity of, any port, roadstead, haven, harbor, canal, lake, harbor of refuge, or inclosure within the limits of any breakwater or of the channel of any navigable water of the United States, unless the work has been recommended by the Chief of Engineers and authorized by the Secretary of War prior to beginning the same;

And Whereas, Mrs. Mabel Trust Slater has applied to the Secretary of War for permission to construct and maintain a wharf into the tide waters of Bar Harbor, Maine, at the location and as shown on the attached plans, which plans have been recommended by the Chief of Engineers:

Now Therefore, This is to certify, That the Secretary of War hereby gives permission to the said Mabel Trust Slater to construct and maintain a wharf into the tide waters of Bar Harbor at said place as shown on said plans, upon the following conditions:

1. That the work herein permitted to be done shall be subject to the supervision and approval of the Engineer Officer of the United States

It is understood that this instrument simply gives permission under said Act of Congress to do the work herein authorized. That it does not give any property rights, and does not authorize any injury to private property or invasion of private rights.

The Subscribers, Municipal Officers of the Town of Eden, upon application of George B. Dow and thirty-four other persons, inhabitants of and owners of Cultivated land in said Town of Eden, asking for the laying out of a public sewer in said town, beginning at Manhole #6. 16, near the junction of Main Street and Cromwells Harbor Road and running in an Easterly direction following the line between land of Edgar Scott and land of Matilda C. Manor and ending at Cromwells Harbor in said town, and having given seven days' notice of our intention to lay out the same, by posting written notices in three public places in said Town of Eden and in vicinity of the proposed route in each notice describing said route, to wit, one at the Post Office, one at the office of the Selectmen and one on an electric light pole at the Junction of Main Street and Cromwells Harbor Road, all at Bar Harbor, in said Eden, on the 18th. day of December 1907 being at least seven days before the time appointed for the laying out of said sewer and having met at the time and place appointed and stated in said notices for that purpose, to wit, on Thursday the 26th. day of December 1907 at two o'clock in the afternoon at the office of the Selectmen, Grant Block Bar Harbor, in said Eden, and having personally examined the route proposed, deem it necessary for public convenience and health that a public sewer be laid out and constructed following substantially the route set forth in said petition and notices.

We therefore lay out said public sewer as follows:-

Beginning at a stone post set in the ground in the Easterly side line of Main Street in the dividing line between land of Edgar Scott and land of Matilda C. Manor, and following said dividing line south eighty four degrees East (S. 84° E.) through land of Edgar Scott and land of Matilda C. Manor, Thirteen hundred feet to low water mark at the shore of Cromwells Harbor, said dividing line between land of Edgar Scott and land of

Matilda C. Marker to be the center line of the strip of land to be taken for the proposed route of such public Sewer, said strip of land to be ten feet wide in every part so that a strip of land five feet in width in every part along said adjoining said division line is taken from each of said land owners for the purpose of said Sewer, We decide and determine that no damages are sustained by said Edgar Scott and Matilda C. Marker by the laying out of said Sewer and we therefore award no damages.

Written Permit to
Bar Harbor and Union River Power Company

Whereas the Bar Harbor and Union River Power Company, a Corporation established and existing under the laws of the State of Maine and doing business in said State of Maine by its petition filed with the Selectmen of the Town of Eden Hancock County, State of Maine on the 6th day of April A.D. 1908, made an application to the Selectmen of said Town for a written permit to construct and maintain lines of poles and wires for the transmission of Electric light and Power, and also to construct and maintain necessary supporting and strengthening fixtures within and along certain highways and town ways in said Town of Eden, being above highways and town ways hereinafter described, and

Whereas upon said application fourteen days public notice thereof was ordered to be given, by publishing a copy of said petition and notice in the Bar Harbor Record a newspaper printed at Bar Harbor in said Town of Eden, two weeks successively, the last publication to be fourteen days at least prior to the date of meeting for the granting of such permit a true copy of said petition and order of notice is pasted hereto and made a part of this permit, and

Whereas we, the undersigned Selectmen of the Town of Eden met at the time and place specified in said notice, to wit, at the office of the Selectmen at Bar Harbor in said town on Thursday, the 30th day of April, A.D. 1908, at nine o'clock in the forenoon.

At said meeting before proceeding with the hearing, the Bar Harbor and Union River Power Company first proved that such order of notice had been complied with, and that public notice had been given as required thereby, to wit, that a true copy of said petition and notice had been published in the Bar Harbor Record, a newspaper printed at Bar Harbor in said town, two weeks successively, to wit, on April 8th and April 15th the last publication having been fourteen days prior to the date of said meeting. We therefore find and adjudicate that the public notice ordered by us has been given, and

Whereas after proving such notice, we heard the Company through its attorneys and agents and all persons in opposition, and immediately

afterwards proceeded to view the proposed route, and after hearing and fully understanding said matter we determined to grant a written permit to said Corporation as provided by Section 17, 7 Chapter 55 R.S.

Now therefore having given fourteen days notice as aforesaid, and having given residents and owners of property upon the highways and townways to be affected full opportunity to show cause why such permit should not be granted, we have determined and adjudicated to give, and do hereby give to said Bar Harbor and Union River Power Company for the purpose of carrying out its objects, written permit to construct and maintain lines of poles and wires for the transmission of Electric light and power, and also to construct and maintain necessary supporting and strengthening fixtures within and along the following highways and townways in said Town of Eden to wit:-

The posts shall be of cedar, chestnut or other suitable wood, or of metal, reasonably straight, set securely in or upon the surface of the ground and projecting not less than twenty feet above the ground; the posts, together with necessary supporting and strengthening fixtures may be located within the limits of any and all highways and townways, and the wires may cross from one side to the other of said highways and townways

Whereon said Company may drive, and the wires may be run from Pole to Pole upon, along and across said highways and town ways at a height of at least thirty feet above the ground.

And as incidental to the rights and powers hereby granted and permitted, said Company may do any and all things necessary to enable it to fully carry out its purposes in the manner above specified.

After the erection of said line, having first given said Company or its Agents opportunity to be heard, the Municipal Officers may direct any alteration in the location of the erection of said poles and in the height of the wires.

Whereas, By Section 10 of an act of Congress, approved March 3, 1899, entitled "An act Making Appropriations for the Construction, repair, and preservation of Certain public works on rivers and harbors, and for other purposes," it is provided that it shall not be lawful to build or commence the building of any wharf, pier, dolphin, boom, weir, breakwater, bulkhead, jetty, or other structures in any port, roadstead, haven, harbor, canal, navigable river, or other water of the United States, outside established harbor lines or where no harbor lines have been established, except on plans recommended by the Chief of Engineers and authorized by the Secretary of War, and it shall not be lawful to excavate or fill, or in any manner to alter or modify the course, location, condition, or capacity of, any port, roadstead, haven, harbor, canal, lake, harbor of refuge, or inclosure within the limits of any breakwater, or of the channel of any navigable water of the United States, unless the work has been recommended by the Chief of Engineers and authorized by the Secretary of War prior to beginning the same; and

Whereas, Mr. H. D. Wakefield of Eden, Maine, has applied to the Secretary of War for permission to construct and maintain a wharf in the tide waters of Bar Harbor, at Bar Harbor, Maine, at the location and as shown on the attached plans, which plan has been recommended by the Chief of Engineers;

Now therefore, This is to Certify that the Secretary of War hereby gives permission to the said H. D. Wakefield to construct and maintain a wharf in the tide waters of Bar Harbor, Maine, at said place, as shown on said plans, upon the following conditions:

1. That the work herein permitted to be done shall be subject to the supervision and approval of the Engineer Officer of the United States Army in charge of the locality.

required upon due notice from the Secretary of War, to remove or alter the same so as to render Navigation through said Waters reasonably free, easy, and unobstructed.

It is understood that this instrument simply gives permission under said Act of Congress to do the work herein authorized. That it does not give any property rights, and does not authorize any injury to private property or invasion of private rights.
